Due to the limitations in space, faculty and budget, admission to the 2nd-Year Professional Architecture courses can be granted to a maximum of 45 of the most qualified applicants. A detailed description of the admission application process is available from the WSU General Catalog.

To be considered for enrollment in the 2nd-year Architecture courses, a student must successfully complete at least 26 semester credit hours of Architecture Program requirements. Selection is based on a student’s grade point average (GPA) in the required courses below plus other General Education Requirements (GERs). The 26+ semester credit hours MUST include the following courses or their equivalent from other institutions:

SDC 100, 120, 140; Engl 101, GenEd 110/Hist 120 or GenEd 111/Hist 121 or Hist 105, Math 171 or Phys 101 or 201. A grade of “C” or better is required in SDC 100, 120, and 140.

NOTE: If you have completed more than 26 semester hours of coursework, your GPA will be based upon the Architecture and GER/UCORE courses in which you have received the highest grades.

The evaluation of applications takes place at the end of WSU’s spring semester. An email will be sent to all students regarding their entrance status during the early summer.

Students accepted for the second year of the Architecture Program will be required to have a laptop computer. Please see www.sdc.wsu.edu, Information Technology link, for current specifications. A handout is also available from the school.

The undergraduate curriculum at WSU provides multiple opportunities for students to participate in off-campus experiences. In the fall semester of the third and fourth year, students are required to participate in a 5-day domestic study tour. Students are assessed a 301/401 course fee to cover the expenses of this part of the curriculum.

Please indicate in the following space any academic situations that may affect your successful entry into 2nd-Year, including summer courses.
