

SDC COMMITTEES AND SERVICE

Academic Year 2016-17

Note: All faculty and staff are expected to perform service, whether to their program, school, college(s), and/or university. The director, in consultation with the leadership team, shall make a concerted effort to place faculty and staff on committees and into service in a strategic and equitable manner.

Committees and/or service activities are intended to last through the academic year but may be reinstated for the following year to maintain momentum or to complete tasks. Committee makeup is subject to change based upon availability, expertise, or other factors. At the discretion of the director, new committees, appointees to existing committees, or replacements of committee members may be formed during the academic year. College administration or deans may request appointments at any time.
