

Construction Management Application

School of Design & Construction

Washington State University, P.O. Box 642220
Pullman, WA 99164-2220
Phone: (509) 335-5539, Fax: (509) 335-6132

Application Due Date: **May 1, by 5:00 p.m.**
Please return to Carpenter Hall - 5th floor

Thank you for your interest in the Construction Management program at WSU. Please complete this form and return it to the 5th floor of Carpenter Hall by the date and time indicated above.

The Bachelor of Science in Construction Management is comprised of two parts: Pre-Construction Management and Construction Management. Upon completion of the Pre-Construction Management Program requirements, or their equivalent for transfer students, application must be made for certification into the Construction Management Program at the second year.

Students accepted for the second year of the Construction Management Program will be required to have a laptop computer. Please see www.sdc.wsu.edu - Information Technology link, for current specifications. A handout is also available from the program.

Certification: 4-Year Program

Selection of the most qualified students is based on the fulfillment of the minimum requirements listed (same page) and the student's grade point average (GPA), which is compiled by the first year Construction Management course requirements. Enrollment is limited by University resources.

The evaluation of applications takes place at the end of WSU's spring semester (May/June). Students will typically be notified of the School's decision in the form of a letter (via US mail) and via e-mail by mid-June. Unsuccessful applicants who wish to be considered the following year must re-apply.

Transfer Students

Transfer students should not only complete this application, but also need to apply to attend WSU through the Office of Admissions if they have not already done so. The Construction Management Program must receive grades for spring courses prior to July 1.

If you are transferring from a community college or university other than WSU and have not taken the equivalent of Cst M 102, but meet all the other requirements, the CM program will provide you with a short course and an exam to test out of Cst M 102. *This is only for students transferring from outside of WSU and who have fulfilled all other requirements.*

The "Uniform Undergraduate Application for Admission" must be submitted to:

Office of Admissions
Washington State University
Pullman, WA 99164-1036
Phone: (509) 335-5586

Students may also apply to attend WSU on-line at www.wsu.edu.

Indicate below the courses you have completed or plan to complete to satisfy the certification requirements for Construction Management. WSU's Transfer Equivalency web site, found through the A-Z index on WSU's homepage, www.wsu.edu can be a helpful tool to determine transfer equivalencies from Washington state community colleges and four-year institutions. If your transfer credits are from an out-of-state institution, please enclose copies of your transcripts. Complete course descriptions can be found on WSU's Registrar's home page under the "WSU Catalog" link. Final evaluation of WSU General Education Transfer credits will be made by the Admissions Office, and evaluation of the Construction Management course equivalents will be determined by the School of Design & Construction. Indicate the grades of those courses (or their equivalents) that you have completed below. Please list "IP" for any currently in-progress courses.

WSU Course (or Equivalent)	Grade
Comm. Proficiency (HD205 or Com 102)	_____
EconS 101 - Fundamentals of Microeconomics	_____
EconS 102 - Fundamentals of Macroeconomics	_____
Geol 101 - Introduction to Geology	_____
Math 171 - Calculus	_____
Cst M 102 - Introduction to the Built Environment	_____
Engl 101	_____
Hist 120 or Hist 121/GenEd 110	_____
Hist 105/GenEd 111	_____
SDC 100	_____

(List GER/UCORE course above)
