Re: VTR response: review for corrections of errors and facts

NAAB Team,

Please find below the results of our *review for corrections of errors and facts* of the VTR provided. We appreciate the thoroughness and clarity of the report. Reach out with any questions regarding our response.

1. Pg. 3, fourth bulleted item:
Name misspelled: The correct spelling of Kristina's last name is "**Borrman**", not Bormann.
2. Page 10, 2nd paragraph:
Clarification item. 1st sentence reads "...M.Arch. professional degree as one of six related curricular areas." Is this separating out all degree offerings - M Arch, BS Arch Studies, BS in CM, MA in ID, BA in ID, and BLA? If so, then not a factual concern.
3. Page 12, paragraph 3:
Clarification item. 1st sentence reads "...among three other environmental design disciplines in the SDC...". Is this referring to the ID, LA, and Architecture bachelor's degrees? If so, then not a factual concern. If it is including the CM program, a term other than "environmental design" may be appropriate.
4. Pg. 13, paragraph 4:
Typo - replace "consult **what** an NCARB Licensing Advisory" with "consult **with** an NCARB Licensing Advisor".
5. Pg. 15, paragraph 2:
Typo – replace "Sick Architecture, **to** TB to COVID 19" with "Sick Architecture, **from** TB to COVID 19"
6. Pg. 15, final paragraph:
Incorrect course naming. Change course name from "ARCH 570 **Adaptive Architecture**" to "ARCH 570 **Advanced Architectural Design Studio I**"
7. Pg. 16, paragraph 5:
Name misspelled: The correct spelling of Kristina's last name is "**Borrman**", not Bormann.
8. Pg. 19, paragraph 6:
The VTR indicates that "Arch 403 delivery mirrors professional practice by bringing students and faculty together from the architecture, interior design, landscape architecture, and construction management program". This is partially incorrect. While Arch 403 delivery does bring together students and faculty from the architecture and construction management programs – it does not involve students and faculty from the Landscape Architecture and Interior Design programs.
9. Pg. 19, final paragraph:
In this paragraph, it is noted that "while the comprehensive nature of ARCH 403 projects involving students from **other majors** makes it somewhat difficult to discern the architecture students' role in the site design and other design synthesis components...). Following from the factual correction provided above (regarding paragraph 6 on page 19), "other majors" should be revised either to "**another major**" or to "**the construction management program**" – or alternatively, this clause could be otherwise revised and/or stricken from the VTR.

10. Pg. 24, paragraph 4:
Typo – the word “involvement” is capitalized mid-sentence within the last sentence in this paragraph. In that same sentence, it is assumed that the authors intended to communicate that the “program head coordinates faculty involvement in program-level governance...” instead of “involvement at the governance level”.
11. Pg. 27, paragraph 3:
The period is missing in the last sentence.
12. Pg. 28, paragraph 3:
Name misspelled: The correct spelling of Kristina’s last name is “**Borrman**”, not Bormann.
13. Pg. 34, paragraph 1:
It is assumed the author did not intend to include the word “**both**” in the first sentence of this paragraph.

Best,

Matt Melcher
